

Museums

Museums

Visiting the museum - a classic pastime for young and old. Virtualization allows for space-saving and efficient presentation of your exhibits. Through customized smartPerform interfaces, your visitors can navigate intuitively through a virtual world experience. The networked operation allows for quick and easy updating of content from the comfort of your desk. The best part: As a standard product, smartPerform offers an excellent price to performance ratio providing a simple, no-learning-curve-required experience.

Person Recognition

Provide individual greetings and guides.

Control

Media and room functionality.

Network

For secure and efficient operation.
