Salesteams

Nonlinear, innovative forms of presentation provide variety and allow for subject matter changes without breaks in flow. Utilizing centralized data maintenance, smartPerform updates your presentation device through your corporate network - automatically or manually, simply and quickly. Time, you previously needed for creating your presentations, can now be used for customer meetings or for presentation training.

Functions for flexible data import, annotating your content, collecting and distributing your presented content and for saving annotations, ensure sustainable usage scenarios.

Data Maintenance

Manage data automatically or manually via network.

Collaboration

Annotation and Whiteboard.

Data Basket

Collect and distribute your hand-outs.
