

Showrooms

Showrooms

Guided tours through full courses with outdated exhibits are finally over. Virtualization allows a space-saving and efficient presentation of your portfolio. Through intuitive, customized smartPerform interfaces as well as by specific processes, even new speakers and presenters will navigate quickly and confidently in the visitor presentation. The networked operation allows for quick and easy updating of content from the comfort of your workplace. With features for personal identification, individualized greetings and tools for collaborative meetings, you can ensure a lasting impression on your visitors.

Person Recognition

Provide individual greetings and guides.

Collaboration

Work creatively and present all in one room.

Control

Media and room functionality.
