Digital Signage

Digital Display Applications for Product Presentation, Guidance, E-Commerce Solutions and Animated Advertising

With the smartPerform Digital Signage Software for all Infosteles you operate versatile applications for presentation, wayfinding, e-commerce solutions or animated advertising. Therefore, almost all media formats, live sources or streaming sources are supported and configured in content management working environment to a customized user application. Content is played out via playlists and time-controlled. Interfaces for sensors such as presence, motion, eye tracking or gender enable impressive interactions with people in the room. They welcome visitors and customers, report on daily news, regulations, weather, menu or events.
