Information and Kiosk Systems

The Kiosk Software for All Digital Signage and Interactive Signage Applications

With smartPerform Kiosk software you can run versatile applications for presentation, wayfinding, e-commerce solutions or animated advertising. Therefore almost all media formats, live sources or streaming sources are supported and configured in content management working environment to a customized user application. The simple operation takes place via playlists and time-controlled or interactive. Interfaces for sensors such as presence, motion, eye tracking or gender enable impressive interactions with people in the room. They welcome visitors and customers, report on daily news, services, offers, ordinances, weather, menu or events.
