Non-Touch LED & Large Screens Impressive Content Management for Powerwalls and LED Systems

Via a small management touch display, smartPerform solutions stage all content and processes for non-touch screens, projectors, powerwalls and LED screens in an impressive way at the conference table, at the lectern or at the reception desk. The management of special usage scenarios such as calling up automatic digital signage playlists, integrating the content of your presenters' presentation devices, TV reports from news or sports, product information, documents from the network and cloud, whiteboard functions and much more become part of your presentation via preset or touch operation.

- ✓ Innovative Presentations, Modern Forms of Work
- ✓ Self-Determined or Automated Operation
- ✓ Data Access to Local Storage, Cloud and SharePoint
- ✓ Integrates Applications, Dash Boards, Video conferencing
- ✓ Tools for Creative Collaboration
- ✓ For Sustainable Usage Scenarios and simple Operation
