## Teaching and Learning

Intuitive User Interfaces for Education and Training Complement  
Your Interactive Whiteboard

The intuitive, customized user interface allows easy access to all media content from local networks or learning platforms on the Internet. You can work with interactive whiteboard and annotation features, use favorite video conferencing solutions, and connect everything to content from your students' presentation devices for amazingly simple teaching and learning experiences. A Windows room PC or a teacher laptop serves as the base for all current and future communication tasks.

- ✓ Intuitive User Interface in All Rooms
- ✓ Networking of Teachers, Students and Their Presentation Devices
- ✓ Interactive Whiteboard for Classroom and Distance Learning
- ✓ Data Access to Local Storage and Learning Platforms
- ✓ Integrates Applications, Dash Boards, Video Conferencing
